

Sirs,

I would like to let you know that I am very unhappy about the actions of the National Association of Broadcasters to stop XM radio from transmitting traffic and weather. I find it extremely useful when I'm at home but also when on the road it makes my travel so much easier knowing that I don't have to search around for a weather or traffic update because I can program my reciever ahead of time and be sure I'll get the info I need. I pay for these services and don't need the NAB to tell me what I should listen to.

So I urge you to reject the NAB's petition 04-160

Thank you.
